

Instructions for Free RealPlayer Download

Minimum Technical Requirements to view video streams include a 56 K Modem and RealOne Player software. To ensure that you are using the current version of RealOne Player, click on the free download link and follow the instructions, ([RealOne Player free download](#) for MAC OS X [Please Click Here.](#)) Make sure you complete the process including registering with your email address. Once downloaded, minimum computer requirements for RealOne Player are:

64 MB RAM	Internet Explorer 5.0 or later	Windows 98/2000/ME/XP
-----------	--------------------------------	-----------------------

The screenshot shows the top navigation bar of the RealPlayer website with links for 'Real Guide', 'Music', 'Movies', and 'Free Games'. The 'Free Games' link is circled in black. Below the navigation bar, the main content area features the text 'Watch Full-Length Movies Online with SuperPass' and a prominent yellow 'Free Download' button with '14-DAY FREE TRIAL' written below it. The 'Free Download' button is also circled in black.

The screenshot displays the 'Choose your player!' section of the RealPlayer website. It features two columns: 'Premium Player' (Recommended) and 'Basic Player'. The 'Premium Player' column highlights 'RealPlayer Plus' with a 'Download Now' button. The 'Basic Player' column lists features and includes a 'Get RealPlayer - Free' button, which is circled in black. A promotional offer, 'PLUS! Get Rhapsody and 25 FREE song plays every month.', is also circled in black. The 'Basic Player' column lists features such as 'Best video & audio quality ever', 'Plays every major media format', 'LivePause and Perfect Play allows you to control your video streams', and 'Transfer your music to over 100 portable devices'. A 'System Requirements' link is provided at the bottom of the 'Basic Player' column.
